BUS DRIVER CAUSES ARREST OF SUSPECT

Think He May Know Something About Murder Of Franklin County's Sheriff Last Monday

IS TAKEN TO INDIANAPOLIS

Drivers for the White Top bus line between here and Indianapolis believe that they captured a man who may know something about the murder of Sheriff VanCamp of Franklin county, east of Brookville, one week ago today, when they caused the arrest of an unknown man in Indianapolis Saturday night.

The suspected man, with neither hat nor coat, came rushing up to the bus just before it left for Indianapolis late Saturday night, and said that he wanted to get to Indianapolis at once. He was nervous and uneasy and confided in the driver, George Brown that he was in trouble.

When the bus reached Morristown the driver stopped on the pretext of having tire trouble, and with the aid of another driver for the same line, telephoned word to the Indianapolis police that he was bringing in a man who was probably wanted for a violation of the law.

When the bus reached Sherman drive in Indianapolis, the police were there waiting to take the man off. Indianapolis dispatches today failed to disclose the identity of the man or any of the circumstances surrounding the arrest.

BUENA VISTA CHURCH STRUCK

Lightning Damages Building, Which Is Not Fired By Bolt

The Christian church at Buena Vista, located in Franklin county just over the Rush county line, was struck by lightning Sunday afternoon about four o'clock, when the storm swept over that part of the country. The lightning hit the tower and ran down inside and followed wires that led to a corner of the building and barely missed the gasoline pressure tank of the lighting system for the church.

The lighting system was destroyed, except the gasoline tank, and a serious explosion was averted. The building was not set on fire, but it was considerably damaged, and it is expected that when remodeling begins, that a basement will be dug to accommodate the tank and provide more room for church gatherings. It is considered fortunate that no one was in the building.

ASSERTS STRIKE MUST BE SETTLED

Governor Pinchot Tells Miners and Operators Representatives Walk-out Must Be Averted

NO PLAN TO BREAK DEADLOCK

Says Rights of Miners to Fair Wage And Operators to Fair Profit Must Be Accepted

(By United Press)

Harrisburg, Pa., Aug. 27.—Gov. Pinchot of Pennsylvania, today served notice on the anthracite miners and operators that their difficulties must be settled and the threatened coal strike averted.

Unless this is done, he told them the state of Pennsylvania would use every means to protect the public interests.

Pinchot did not advance any plan for breaking the existing deadlock between the two parties. He only asked that they agree to confer with him privately—the miners this afternoon and the operators tomorrow morning.

The governor, speaking to the four representatives of the miners and the four of the operators in the big gold reception room of the capitol, stressed the needs of the public.

The rights of the miners to a fair wage must be accepted, he pointed out. The rights of the operators to a fair profit can not be violated.

"But the general public is a party to this controversy," he said, "and its rights as well as the rights of the two parties must be recognized."

"A shortage of anthracite means not only a huge loss of wages to the mines—but it means also the loss of health among millions of American families, loss of comfort, of working power and of time."

"I express a truth that none can deny, when I say that the anthracite using people of the United States are losing patience and I ask you to consider that fact with care."

"The public demands that this controversy should be settled and that a suspension of mining shall be avoided."

Samuel D. Warriner, chairman of the anthracite operators, immediately accepted Pinchot's offer.

Phillip Murray, first vice president of the United Mine Workers acting leader in the absence of John L. Lewis, also formally agreed.

Pinchot himself would not express optimism over his prospects of success this morning before the conference began.

Mine leaders who came here from Atlantic City to attend the "mysterious conference" fear the enthusiastic governor cannot avoid a strike. The operators are hopeful but reluctant to express any definite opinion.

It is in this mixed atmosphere of near-pessimism that the conference begins.

Pinchot has decided that matters are to be started "wide open". At the first session this noon, the newspapermen will be present. Pinchot will then deliver his talk. Afterward there probably will be executive sessions. Just what plan the governor may be thinking about still was in doubt as the conferees gathered. There were some who expressed

PLAY TURNED INTO A STARK TRAGEDY

Boys 11 and 16 Years Old Roasted Alive During Indian Game With Two Others

TRAGEDY AT SPRING LAKE, N. J.

Spring Lake, N. J., Aug. 27.—Play turned into stark tragedy early today when Charles Spindler, 11 and Wm. Hubbard, 16, died after being virtually roasted alive.

Dick Forman, 16 and Taylor Hubbard, 18, brother of William, are held in jail pending investigation.

During play, which included the game of Indian, Spindler and Hubbard were tied to a tree by the older boys, police say. Excelsior was piled around the youngsters. A match was applied to the pile. But instead of the excelsior burning itself off quickly, oil-soaked ground around the tree sprang into the flame. Unable to break through the wall of fire, the older boys ran for help while the two victims shrieked in agony. Spindler and Hubbard were charred and unconscious when dragged from the burning ground, where they had fallen when the ropes that held them to the tree, gave way.

At a Spring Lake hospital they regained consciousness for a few moments.

"They set fire to us," was all they told police, just before they died.

SECOND OFFENSE TO BRING A SENTENCE

Indianapolis Speeders Who Repeat Offense Will Be Sent To State Penal Farm

FIRST OFFENDERS PENALTY

(By United Press)

Indianapolis, Ind., August 27.—Speeders convicted in city court a second time will be sentenced to the Indiana state farm for from thirty days to six months by Judge Wilmet, beginning today.

Judge Wilmet has lectured speeders, fined them and had them in to see a movie showing the results of traffic accidents, and he has at last decided the only way is to give them time to think it over.

For the first time offenders, the judge announced a new schedule of fines, or an alternate plan of having the car stored for a certain period of time in place of paying a fine.

The man who clips along at 25 miles an hour will pay \$5 and costs or have his car stored for five days.

The penalty increases with the speed, until, for driving 50 miles an hour, the culprit will be fined \$100 and costs or compelled to have his car stored for one year.

To take advantage of the suspended fine provision, the owner will have to put his car in storage and turn the license plates, certificate of title and keys over to the court bailiff.

CARRIGAN PAYS COLUMBUS DEBTS

Theatre Man Who Is Believed To Be The One Who Was Here Makes Good On His Debts

SENDS DRAFTS IN PAYMENT

Says In Letter From Dayton That He Made Mistake In Writing Check On Wrong Bank

The mysterious James Carrigan, who was wanted at Columbus, Ind., was evidently the same James Carrigan who rented a motion picture theatre here, as several people in Columbus received special delivery letters and drafts from him, postmarked Dayton, Ohio, and when the man left this city unexpectedly last week, he said he was going to Dayton to cash a \$800 note, that he had attempted to pass here.

In view of the fact that he sent drafts to the persons in Columbus, it is believed that he will be heard from by local people, who have claims against him for work that he ordered done to the theatre building, after which he suddenly disappeared without any word to the contractors.

It will be recalled that among those whom he had dealings here were Phillip Miller, electrician; Jess Guire, a real estate agent; Mike Katsaros, of the Greek Candy store; The Maunz Company; Ed Crosby and John Bever, contractors for the decorations of the theatre.

In speaking of the payment of his bad debts in Columbus, the Republican of that city comments as follows:

James Carrigan, or Corrigan has paid up!

Special delivery letters were received here Saturday from Carrigan by Francis Overstreet, secretary of the fair association, and Hege & Company, containing drafts totaling \$90. The drafts were sent from Dayton, Ohio and a Dayton hotel letterhead was used for the communications.

Carrigan in his letter to the fair association sent a draft for \$50 covering a check which he issued in payment for concession space, that was never used by him, at the fair last week. He stated he was sorry the check had not been honored and that he had made a mistake in writing a check on the wrong bank. He also declared that he intends to return to the fair next year.

In his letter to Hege & Company he enclosed a draft for \$40 in payment for the construction of a wooden "theatre" at the fair grounds. The original agreement was that the work would be done for \$50, officials of the company said this morning. In his letter Carrigan said that he understood that they had not built the stage to the theatre and made a deduction of \$10 for this item. However, he appeared very anxious to please, and said he would return here in a few days and if the settlement was not satisfactory he would pay the additional \$10.

In this second letter Carrigan said that he had had much bad luck and that he was confined to a hospital for four days, intimating that this was the reason he had not returned here as he announced he would. He said he had lost between \$300 and \$400 for labor, show talent and so

ACTS TO PREVENT FURTHER RIOTING

District Attorney Attempts to Learn Cause of Disturbances Causing Death at Carnegie, Pa.

MOB ATTACKS KLAN PARADE

Scores of Arrests Made But Majority Are Released After Being Fined For Carrying Weapons

(By United Press)

Atlanta, Ga., Aug. 27.—Howard Evans and members of the Ku Klux Klan, who were involved in the Carnegie riot Saturday night are in a position of forfeiting American citizenship, declared William J. Simmons, founder and emperor of the Klan here today.

Evans, imperial wizard "for the time being" of the Klan "evidently invaded Pennsylvania bristling with guns and daggers and his very presence was an offense against peace and order and a challenge to peaceful, loving and law-abiding citizens to either intercept or expell him and his followers," Col. Simmons said.

Simmons charged that "gunmen in the imperial Palace of the Klan and surrounding the imperial wizard for the time being, has gone a long way to fomenting and precipitating the options of lawlessness, which at the present time are breaking out in deeds of lawlessness throughout the country."

Pittsburgh, Pa., Aug. 27.—District Attorney Samuel H. Gardner moved today to prevent further disturbances like the riot in Carnegie late Saturday night which resulted in the shooting to death of Thomas R. Abbott, of Atlasburg, Washington county, a klansman.

Gardner conferred with chiefs of the Klan here and officials of Carnegie in an effort to learn what caused the mob of citizens of Carnegie to attack the klansmen with clubs and revolvers.

Chief Burgess Conley declared the mob attacked the klansmen when the latter insisted on holding a parade without a permit for which Conley said no application for permission to conduct a parade had been made to him.

Scores of arrests were made but the majority were released after a small fine on a charge of carrying revolvers was assessed. One man, Patrick McDermott, an undertaker of Carnegie, who was seen by eyewitnesses holding a revolver at the time Abbott fell, police say, was held in jail.

Dr. W. H. Evans, imperial wizard of the Klan, who attended the initiation of a class of candidates on the Forsythe farm preceding the rioting, announced a reward of \$2,500 for arrest and conviction of Abbott's slayers. Sam D. Rich, king klegale of the Klan, announced a similar reward.

Twenty thousand klansmen had gathered at the Forsythe farm near Carnegie early Saturday evening for (Continued on page 6)

FIRING USHERS IN IRELAND'S ELECTION

Reports of Machine Guns and Rifles and Frequent Bombs Fill Air in Dublin

MILITARY PATROLS STREETS

Dublin, Aug. 27.—Hearty firing of machine guns and rifles together with frequent bomb explosions, ushered in Ireland's election day.

The uproar started at 3 a. m. It ended at four a. m. The cause of the disturbance has so far not been disclosed.

Following the outburst of noise, a sabbath calm descended upon the city and when the polls opened, Dublin was as quiet as it would be on a holiday.

Most of the shops were closed and hundreds of persons went to the seaside after casting their ballots.

Military patrols were stationed in the important polling centers. Armed cycle patrols ranged the streets and armed guards protected the booths. No untoward incidents were reported.

Local officials are divided as to their theories in regard to Carrigan. Some feel that he became frightened because of the close call that he had when the wrong showman was arrested at Rushville a few days ago at a time he was in that city. Others feel that he is just a little "queer," this information having been received from a bank in Louis-

ville and believe that this is the explanation of the entire affair. He is said to be an Armenian.

PRINCESS THEATRE

TONIGHT AND TUESDAY

WITH BETTY COMPSON AND RICHARD DIX

She was the most beautiful, most skilled, most daring crook the police ever had to cope with. And when she stole the district attorney's heart—

Here's melodrama of the polished kind. Plenty of thrills and heart-throbs, but no rough edges.

Beautiful Betty in four marvelous characterizations. Dix as the district attorney.

"The Woman With 4 Faces"

AMUSEMENTS

"The Westerners"

Major Stewart Edward White, author of "The Westerners," the famous novel, which will be seen in screen version at the Mystic Theatre today and Tuesday, is not only famed as a great author, but as an explorer, big game hunter and sportsman as well. Indeed, it is difficult to say in just which of these lines he has scored the greatest success. In the eyes of the general public, of course, his novels and stories stand foremost. But Major White is better known in Africa as the man who holds the world's lion-shooting record, the man who mapped German East Africa for sporting purposes, and then turned over his data to the British Government at the outbreak of the war, and like performances.

From the far North—Alaska, Canada, all the lands of long, dark winter in the New Continent—to the torrid jungles of Central Africa, White has hunted, prospected, surveyed and gathered the wonderfully accurate local color and atmosphere for his books.

He has loved the outdoors and lived there since his boyhood days on his father's timber land in Michigan. His first adventure trip was to the Black Hills during the gold rush there, which exciting epic of American history served as the foundation for "The Westerners," a Hadkinson release, were taken from life and the main events are actual history.

In the Black Hills he found but a pill-bottle full of gold, which was stolen from him. He made his living shooting game for the mining camps. In this exciting occupation there were brushes with the Sioux, and also the beginning of his big game hunting career—for those were the days of the bison and the grizzly.

A Thrilling Drama

One of the most thrilling dramas ever shown on the screen is "The

Woman With Four Faces," featuring Betty Compson and Richard Dix which will be the attraction at the Princess Theatre today and Tuesday. It is a Herbert Brenon Paramount production.

To bring to book a ring of dope traffickers, men of wealth and powerful, the district attorney resigns his job and gains the aid of a clever girl crook to open a safe which contains a paper incriminating these nefarious operators.

She tells him there is but one man who can do the trick, and he is in prison. An escape is effected by means of an aeroplane, but the crook, believing the district attorney is trying to win the girl's love refuses to aid him. Then they go after the paper by different tactics. It

is the center of a mad struggle for its possession, and a series of climaxes are piled on top of one another ere the attorney secures the document and sends the guilty ones to prison. In the end, the girl, reformed, wins the love of the district attorney.

Betty Compson as the girl, Richard Dix as the district attorney, and a cast of favorites in the other parts make this a super-excellent mystery drama. The supporting company is quite capable.

GOD'S KINDNESS:—For the mountains shall depart, and the hills be removed; but My kindness shall not depart from thee, neither shall the covenant of My peace be removed, saith the Lord that hath mercy on thee.—Isaiah 54: 10.

Why Worry

Hog prices are right on the heels of ten dollars and corn is ten to fifteen cents a bushel higher than a year ago, with prospects of one of the best corn crops in history.

So why should farmers worry? Though wheat prices were low, in the face of a comparatively large yield, corn, holding strong, is coming along to make up any deficit that wheat might have caused in the farmer's bankroll.

Indiana is typically a corn state and Rush county, together with

many other southeastern counties, are corn-producing counties. Therefore, a loss on wheat, due to low prices, does not break Rush county farmers, when corn and hogs continue to be normal or a little better.

As a matter of fact, Indiana puts very little dependence on wheat. Her wheat production amounts to only 24,144,000, where the Hoosier state's corn yield mounts to 169,848,000 bushels, and this figure may be topped this year.

Wheat, even, is a smaller crop than oats, which piles up 45,072,000 bushels at harvest time every year. Feeding high-priced corn to hogs is going to make high-priced hogs, and if the price of hogs stays up, the farmers of Rush county shouldn't lose any sleep over selling their wheat crop at a loss.

A Needed Reform

"We kill our presidents with overwork and allow our vice presidents to do little or nothing," remarks a writer.

There is food for an encyclopedia of thought in that statement, lamentably true as it is.

Some day the burdens of the presidency will be divided, and the vice president will become an important cog in the governmental machinery, instead of an ornament under pay.

Perhaps Mr. Coolidge, having tasted of the bitterness of political sweets, will be the executive to advocate this needed reform in our system of governmental control.

Who knows?

Men Work Here

When the czar of Russia took a tumble his chief of staff fled with his family to Constantinople.

While there the general busied himself in writing his memoirs, quite in keeping with the dignity of his aristocratic past. His wife, more practical, took in washing while their two daughters hired out as cooks.

Now they have applied for entry into the United States.

But this would be a bad place for the general, quite distressing, you know. Men work here, while the women take life more easily when there is any ease to be had.

A Hole at Each End

France is willing to reduce the amount of reparations Germany is to pay her, provided we cancel an equal amount of the war debt France owes to us.

Very interesting—quite generous indeed.

We didn't start the war, and over on the other side they say we didn't stop it.

And since we didn't start it, and didn't stop it, and owe no debts for others to cancel, they propose that we step up nobly and hold the bag.

And it's a fine large bag, too, with a hole at each end.

No Cause For Concern
(New York Herald)

America has no cause for concern with Calvin Coolidge in the White House. The man who enters the office made vacant by the lamentable death of President Harding is not the sort of public servant whose future course invites wonder or speculation. If there were those who, unfamiliar with the history of Mr. Coolidge, expected from him any startling departure from the obvious program, they have been quickly set right by the nation's new chief executive himself.

President Coolidge's first public announcement after taking the oath of office was to affirm, as Theodore Roosevelt affirmed upon succeeding William McKinley, the policies of his predecessor.

Watch Him!

This is Wallace McCamant, Oregon attorney, who is credited with putting through the vice-presidential nomination of Calvin Coolidge, resulting in Coolidge becoming president. Already, he is reported as about to receive offers of high positions.

PRECARIOUS THE WORD FOR GIANTS

With Skinny Lead and Slumping Team, National League Leaders Are in Bad Way

REDS BACK IN THE RACE

Pirates Also Contenders. Having Won Ten Out of Fifteen Games on Eastern Trip

By HENRY L. FARRELL
(U. P. Staff Correspondent)

New York, Aug. 27—With a skinny lead and a slumping team, the New York Giants are in a precarious condition.

Pat Moran's fighting Reds, out of the race just a week or so ago, are back again as strong as ever. The Cincinnati club has not yet broken a winning streak that has run to eight straight games and it is just 3½ games back of the league leaders.

With a great trip through the east in which they won ten out of fifteen games, the Pirates are one game back of the Reds and 4½ games behind the Giants.

Both the Pirates and the Reds are playing better baseball than the Giants and it is a credit to the great team of John McGraw that the world's champions have been able to retain the lead with all their bad baseball.

Only the stoutest of fighting hearts has enabled the Giants to remain in front. Their defeat of the Cubs yesterday is typical of the heart that is keeping them moving. The Giants went into the last half of the ninth needing three runs to win the game and Vic Aldridge was going like a million.

Jimmy O'Connell hit a homer. There were two down when Jackson slapped one at Barney Friberg. He ran it out at his best although it looked like a cinch out and he was moving so fast that he went to third when Friberg threw the ball away. McGraw sent in Jack Bentley as a pinch hitter and he knocked a homer, winning the game.

New York still has faith in the Giants, figuring that the schedule will help them over the hill. The Giants have but two more games against the Reds and three with the Pirates. In contrast, the Pirates and the Reds will meet in eight games and one of the contenders is very likely to be killed off. It is just as likely to be the Reds as the Pirates.

In the American League the Yankees are just moving along, winning and losing. With all, though, they are retaining a great big lead and there is little to worry them.

Thrilling the Tenderfeet

Tex Austin has taken his wild horses and his wild cowboys to New York to give the Gothamites a thrill. Here one rider dives his horse into the Harlem River in a race in which 12 took part. Tony Pagano on "Cloud" won.

M'Graw's Genius Wins

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Aug. 27—After the genius of leadership he has shown in the last three seasons, it might be true, even if it sounds a little unfair to his boys, to say that John McGraw can win a pennant with any kind of a good ball club.

The New York Giants of 1922 were, in comparison to the other clubs in the National League, a fine ball club, but it is almost certain that they would not have won the pennant behind any manager other than McGraw.

No other manager, with such a dilapidated pitching staff, could have urged the Giants to the heights which they attained in the critical parts of the 1923 pennant race.

Outside of the pitching department which some tacticians consider the most important, the Giants have a great team. McGraw has said he figures it to be the smartest and the best ball club he has ever handled.

In building up what no doubt will turn out to be at least a three-time pennant winner, McGraw was able to find everything but good, young pitchers, and since the New York club has more money to spend than any other National League club, it seems but fate that has reduced the team to such poverty in pitching.

From the results of the 1921 and 1922 pennant races, it might be argued that a great team can win without great pitchers, but the results are achieved only by genius in direction. McGraw has the genius and the figures show that it is possessed by no other manager.

TEAM IS RAINED OUT SUNDAY

Rushville's Game With Greenfield Called in Third Inning

The Rushville baseball team got rained out at Greenfield Sunday afternoon, where the two teams were engaged in a good contest, in the third inning. Neither team had scored when the game was called. Yazel for Rushville was in excellent form, and only six batters had faced him in the two innings that Greenfield had batted, and of these six batters, five of them had fanned. Behnke, who had pitched this season for the locals, was on the mound for Greenfield, and the locals had gathered two hits off of his delivery, and it was beginning to look like Rushville was going to put across some runs.

Greenfield will probably be booked here for Labor Day, and New Salem is scheduled to play here next Sunday.

CROWD OF 100,000 IS EXPECTED HERE

Continued From Page One

The event is being extensively advertised in Rush county, adjoining counties and over the state and the committee in charge states that "All Roads will lead to Rushville Labor Day." With fair weather for the occasion, the crowd is expected to reach the 100,000 mark. According to reports received here, the meeting is attracting much interest over the state and no effort is being spared by the local committee, which is in charge of the arrangements for the gathering, to make it a real success.

The Connersville tennis doubles team won the second leg on the inter-city cup offered at Connersville, in the second annual tournament in the Connersville courts Saturday afternoon, defeating a Rushville team composed of Mike Arbuckle and Tom Ryan of this city in straight sets.

Columbus and Franklin both defaulted and Connersville, Rushville and Richmond fought it out. The second Rushville team composed of Russell Titsworth and Dr. D. D. Dragoon drew a bye in the first round and went to the semi-finals where they were defeated by Spieely and Ridge of Connersville, losing two straight sets after winning the first one 7-5.

Ryan and Arbuckle eliminated the Richmond contestants and went to the finals with Spieely and Ridge, only to be defeated.

FIRPO NEEDS MORE SPEED

Challenger's Managers Looking For Speedier Partners

Atlantic City, N. J., Aug. 27—Advised by competent judges that their man needs to be speeded up to have the right kind of a fight for Jack Dempsey, Luis Firpo's handlers were making efforts today to secure some fast lightweight and welterweights as additions to the South American's staff.

Dr. John Reilly, medical examiner of the New York boxing commission, who has examined both Dempsey and Firpo, said that the latter has a better heart than Dempsey and is less subject to the effects of hard punching.

The Score Board

Batting as a pinch hitter in the last half of the ninth Jack Bentley hit a homer with one on and gave the Giants a 4 to 3 victory over the Cubs.

NOT TO TRAIN FOR FEW DAYS

Dempsey May Not Resume Work Until Thursday, Due to Cold

Saratoga, N. Y., Aug. 27—Bothered with a heavy cold, Jack Dempsey plans to knock off his training for the Firpo fight for several days this week and he may not resume work until Thursday.

In front of a crowd of 3,000 spectators, including many society women, Dempsey worked yesterday with George Godfrey and Jack Burke and failed to show much class. He complained that his muscles are stiff and that the cold was slowing him up.

Rather than take a chance on throwing himself clear off, Dempsey said today he wanted to take several days rest and doctor up the cold. Jack McAuliffe, Farmer Lodge and Jack Renault are expected to join the sparring partners at the Dempsey camp today and when the championship resumes work he will have plenty of heavyweights to get in the way of his punches.

Physical Health means Beauty!

HEALTH and beauty go hand in hand. Where the face drawn and haggard—the body limp and lifeless—beauty is missing. Looks of pity supplant those that might have been gazes of admiration.

Restore your health and beauty will take care of herself. S. S. S.—the rich blood builder—rekindles the spark of health and lights the blaze of beauty by building red blood cells. The nerve power of your system finds life in these very blood cells. Build more red blood cells and your nerve power will increase. S. S. S. builds them. Rich blood will tingle through your system. That lost charm will return. Your entire system will be repaired. You will be ready to cope with the impurities and blemishes that handicap beauty.

As physical health means beauty so, too, does S. S. S. mean beauty. For S. S. S. means systems that are free from impurities—pimples, blackheads, acne, boils, eczema, rheumatism. S. S. S. and good health go hand in hand.

S. S. S. is made of pure vegetable ingredients. It is sold at all good drug stores. The large size bottle is more economical.

ACTS TO PREVENT FURTHER RIOTING

Continued From Page One

The initiation. A number of the klansmen came into the borough limits earlier in the evening and minor disturbances followed, but it was not until the chiefs of the klansmen decided to hold a parade without a permit of the officials of the town that the riot started.

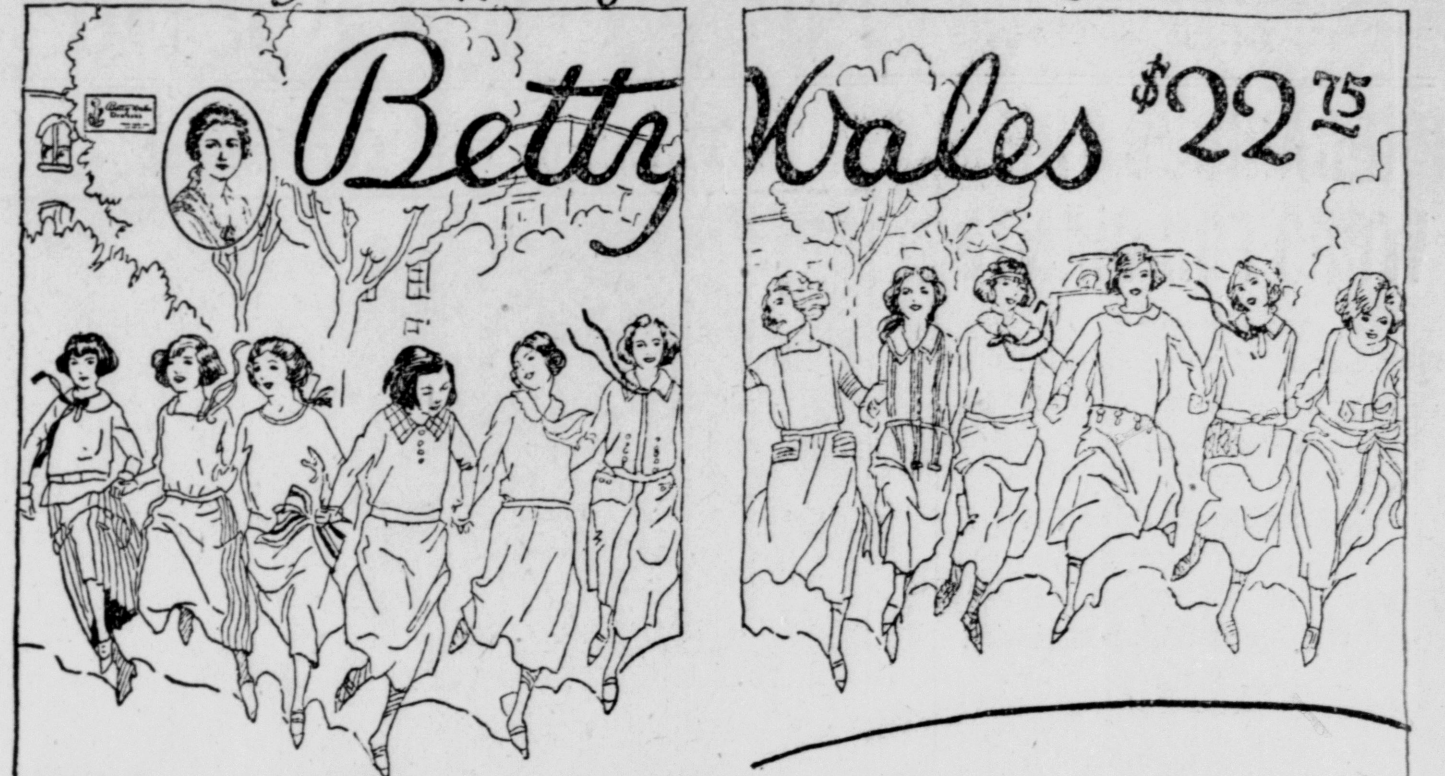

The mob of Carnegie citizens, brandishing clubs and firearms, met the marching klansmen at the Glendale bridge and warned them not to cross into the town. The marchers proceeded with the parade.

An automobile leading the parade was wrecked as the Carnegie men flung themselves on the hooded marchers and curses and threats of "lynch them" and "get ropes" filled the air. The battle lasted for an hour over an area covering four Carnegie city blocks until Pittsburgh police arrived with riot guns and clubs and restored order. Hundreds of klansmen were unmasked and their tattered robes littered the streets.

Over 300 pieces of fire arms, from cheap pistols to shotguns, were found in the streets when the mob was finally dispersed.

sed the opinion that he may have "no plan at all", merely a program or a soft ultimatum to deliver.

The miners intimated strongly that arbitration would be refused as a plan of settlement but showed a willingness to compromise if the operators would listen to the terms of such a solution.

With all of the doubt pervading the atmosphere as the conference opened, there was an element of hope that the governor, when, he hears the whole story, will see a way out of the deadlock by some suggestion, inspirational or otherwise that has never been tried before.

Phillip Murray, first vice president of the Mine workers, is heading the miner delegation. The governor has been informed that John L. Lewis, chief of the union is still in Atlantic City.

It is not clear to the governor just what powers Murray may have to sign or agree to any plan that might be drawn up. There is an impression, however, that the miner delegates would leave any actual step toward settlement to Lewis.

Pinchot expects his conference to last several days. He has sent a representative to New York to work out with conferees from the ten other anthracite consuming states, a plan of flooding bituminous areas in case of a strike.

BUS DRIVER CAUSES ARREST OF SUSPECT

Think He May Know Something About Murder Of Franklin County's Sheriff Last Monday

IS TAKEN TO INDIANAPOLIS

Drivers for the White Top bus line between here and Indianapolis believe that they captured a man who may know something about the murder of Sheriff VanCamp of Franklin county, east of Brookville, one week ago today, when they caused the arrest of an unknown man in Indianapolis Saturday night.

The suspected man, with neither hat nor coat, came rushing up to the bus just before it left for Indianapolis late Saturday night, and said that he wanted to get to Indianapolis at once. He was nervous and uneasy and confided in the driver, George Brown that he was in trouble.

When the bus reached Morristown the driver stopped on the pretext of having tire trouble, and with the aid of another driver for the same line, telephoned word to the Indianapolis police that he was bringing in a man who was probably wanted for a violation of the law.

When the bus reached Sherman drive in Indianapolis, the police were there waiting to take the man off. Indianapolis dispatches today failed to disclose the identity of the man or any of the circumstances surrounding the arrest.

BUENA VISTA CHURCH STRUCK

Lightning Damages Building, Which Is Not Fired By Bolt

The Christian church at Buena Vista, located in Franklin county just over the Rush county line, was struck by lightning Sunday afternoon about four o'clock, when the storm swept over that part of the country. The lightning hit the tower and ran down inside and followed wires that led to a corner of the building and barely missed the gasoline pressure tank of the lighting system for the church.

The lighting system was destroyed, except the gasoline tank, and a serious explosion was averted. The building was not set on fire, but it was considerably damaged, and it is expected that when remodeling begins, that a basement will be dug to accommodate the tank and provide more room for church gatherings. It is considered fortunate that no one was in the building.

ASSERTS STRIKE MUST BE SETTLED

Governor Pinchot Tells Miners and Operators Representatives Walk-out Must Be Averted

NO PLAN TO BREAK DEADLOCK

Says Rights of Miners to Fair Wage And Operators to Fair Profit Must Be Accepted

(By United Press)

Harrisburg, Pa., Aug. 27.—Gov. Pinchot of Pennsylvania, today served notice on the anthracite miners and operators that their difficulties must be settled and the threatened coal strike averted.

Unless this is done, he told them the state of Pennsylvania would use every means to protect the public interests.

Pinchot did not advance any plan for breaking the existing deadlock between the two parties. He only asked that they agree to confer with him privately—the miners this afternoon and the operators tomorrow morning.

The governor, speaking to the four representatives of the miners and the four of the operators in the big gold reception room of the capitol, stressed the needs of the public.

The rights of the miners to a fair wage must be accepted, he pointed out. The rights of the operators to a fair profit can not be violated.

"But the general public is a party to this controversy," he said, "and its rights as well as the rights of the other two parties must be recognized. A shortage of anthracite means not only a huge loss of wages to the miners—but it means also the loss of health among millions of American families, loss of comfort, of working power and of time."

"I express a truth that none can deny, when I say that the anthracite using people of the United States are losing patience and I ask you to consider that fact with care."

"The public demands that this controversy should be settled and that a suspension of mining shall be avoided."

Samuel D. Warriner, chairman of the anthracite operators, immediately accepted Pinchot's offer.

Phillip Murray, first vice president of the United Mine Workers acting leader in the absence of John L. Lewis, also formally agreed.

Pinchot himself would not express optimism over his prospects of success this morning before the conference began.

Mine leaders who came here from Atlantic City to attend the "mysterious conference" fear the enthusiastic governor cannot avoid a strike. The operators are hopeful but reluctant to express any definite opinion.

It is in this mixed atmosphere of near-pessimism that the conference begins.

Pinchot has decided that matters are to be started "wide open". At the first session this noon, the newspapermen will be present. Pinchot will then deliver his talk. Afterward there probably will be executive sessions. Just what plan the governor may be thinking about still was in doubt as the conferees gathered. There were some who expressed.

PLAY TURNED INTO A STARK TRAGEDY

Boys 11 and 16 Years Old Roasted Alive During Indian Game With Two Others

TRAGEDY AT SPRING LAKE, N. J.

Spring Lake, N. J. Aug. 27.—Play turned into stark tragedy early today when Charles Spindler, 11 and Wm. Hubbard, 16, died after being virtually roasted alive.

Dick Forman, 16 and Taylor Hubbard, 18, brother of William, are held in jail pending investigation.

During play, which included the game of Indian, Spindler and Hubbard were tied to a tree by the older boys, police say. Excelsior was piled around the youngsters. A match was applied to the pile. But instead of the excelsior burning itself off quickly, oil-soaked ground around the tree sprang into the flame. Unable to break through the wall of fire, the older boys ran for help while the two victims shrieked in agony. Spindler and Hubbard were charred and unconscious when dragged from the burning ground, where they had fallen when the ropes that held them to the tree, gave way.

At a Spring Lake hospital they regained consciousness for a few moments.

SECOND OFFENSE TO BRING A SENTENCE

Indianapolis Speeders Who Repeat Offense Will Be Sent To State Penal Farm

FIRST OFFENDERS PENALTY

(By United Press)

Indianapolis, Ind., August 27.—Speeders convicted in city court a second time will be sentenced to the Indiana state farm for from thirty days to six months by Judge Wilmet, beginning today.

Judge Wilmet has lectured speeders, fined them and had them in to see a movie showing the results of traffic accidents, and he has at last decided the only way is to give them time to think it over.

For the first time offenders, the judge announced a new schedule of fines, or an alternate plan of having the car stored for a certain period of time in place of paying a fine.

The man who clips along at 25 miles an hour will pay \$5 and costs or have his car stored for five days. The penalty increases with the speed, until, for driving 50 miles an hour, the culprit will be fined \$100 and costs or compelled to have his car stored for one year.

To take advantage of the suspended fine provision, the owner will have to put his car in storage and turn the license plates, certificate of title and keys over to the court bailiff.

The excursion was advertised as running to Rushville, Ind., and Louisville, Ky., and tickets were sold only to these two points.

The train transferred here to the Big Four and continued on to Louisville. The train returned last night and left here at 10:30, and it allowed a full day in this city. Many people came here to visit relatives and to attend reunions.

CARRIGAN PAYS COLUMBUS DEBTS

Theatre Man Who Is Believed To Be The One Who Was Here Makes Good On His Debts

SENDS DRAFTS IN PAYMENT

Says In Letter From Dayton That He Made Mistake In Writing Check On Wrong Bank

The mysterious James Carrigan, who was wanted at Columbus, Ind., was evidently the same James Carrigan who rented a motion picture theatre here, as several people in Columbus received special delivery letters and drafts from him, postmarked Dayton, Ohio, and when the man left this city unexpectedly last week, he said he was going to Dayton to cash a \$800 note, that he had attempted to pass here.

In view of the fact that he sent drafts to the persons in Columbus, it is believed that he will be heard from by local people, who have claims against him for work that he ordered done to the theatre building, after which he suddenly disappeared without any word to the contractors.

It will be recalled that among those whom he had dealings here were Phillip Miller, electrician; Jess Guire, a real estate agent; Mike Katsaros, of the Greek Candy store; The Maury Company; Ed Crosby and John Bever, contractors for the decorations of the theatre.

In speaking of the payment of his had debts in Columbus, the Republican of that city comments as follows:

James Carrigan, or Corrigan has paid up!

Special delivery letters were received here Saturday from Carrigan by Francis Overstreet, secretary of the fair association, and Hege & Company, containing drafts totaling \$90. The drafts were sent from Dayton, Ohio and a Dayton hotel letterhead was used for the communications.

Carrigan in his letter to the fair association sent a draft for \$50 covering a check which he issued in payment for concession space, that was never used by him, at the fair last week. He stated he was sorry the check had not been honored and that he had made a mistake in writing a check on the wrong bank. He also declared that he intends to return to the fair next year.

In his letter to Hege & Company he enclosed a draft for \$40 in payment for the construction of a wooden "theatre" at the fair grounds. The original agreement was that the work would be done for \$50, officials of the company said this morning. In his letter Carrigan said that he understood that they had not built the stage to the theatre and made a deduction of \$10 for this item. However, he appeared very anxious to please, and said he would return here in a few days and if the settlement was not satisfactory he would pay the additional \$10.

In this second letter Carrigan said that he had had much bad luck and that he was confined to a hospital for four days, intimating that this was the reason he had not returned here as he announced he would. He said he had lost between \$300 and \$400 for labor, show talent and so

ACTS TO PREVENT FURTHER RIOTING

District Attorney Attempts to Learn Cause of Disturbances Causing Death at Carnegie, Pa.

MOB ATTACKS KLAN PARADE

Scores of Arrests Made But Majority Are Released After Being Fined For Carrying Weapons

(By United Press)

Atlanta, Ga., Aug. 27.—Howard Evans and members of the Ku Klux Klan, who were involved in the Carnegie riot Saturday night are in a position of forfeiting American citizenship, declared William J. Simmons, founder and emperor of the Klan here today.

Evans, imperial wizard "for the time being" of the Klan "evidently invaded Pennsylvania bristling with guns and daggers and his very presence was an offense against peace and order and a challenge to peaceful, loving and law-abiding citizens to either intercept or expell him and his followers," Col. Simmons said.

Simmons charged that "gunmen in the imperial Palace of the Klan and surrounding the imperial wizard for the time being, has gone a long way to fomenting and precipitating the options of lawlessness, which at the present time are breaking out in deeds of lawlessness throughout the country."

Pittsburgh, Pa., Aug. 27.—District Attorney Samuel H. Gardner moved today to prevent further disturbances like the riot in Carnegie late Saturday night which resulted in the shooting to death of Thomas R. Abbott, of Atlasburg, Washington county, a klansman.

Gardner conferred with chiefs of the Klan here and officials of Carnegie in an effort to learn what caused the mob of citizens of Carnegie to attack the klansmen with clubs and revolvers.

Chief Burgess Conley declared the mob attacked the klansmen when the latter insisted on holding a parade without a permit for which Conley said no application for permission to conduct a parade had been made to him.

Scores of arrests were made but the majority were released after a small fine on a charge of carrying revolvers was assessed. One man, Patrick McDermott, an undertaker of Carnegie, who was seen by eyewitnesses holding a revolver at the time Abbott fell, police say, was held in jail.

Dr. W. H. Evans, imperial wizard of the Klan, who attended the initiation of a class of candidates on the Forsythe farm preceding the rioting, announced a reward of \$2,500 for arrest and conviction of Abbott's slayers. Sam D. Rich, king klegale of the Klan, announced a similar reward.

Twenty thousand klansmen had gathered at the Forsythe farm near Carnegie early Saturday evening for (Continued on page 6)

FIRING USHERS IN IRELAND'S ELECTION

Reports of Machine Guns and Rifles and Frequent Bombs Fill Air in Dublin

MILITARY PATROLS STREETS

Dublin, Aug. 27.—Hearty firing of machine guns and rifles together with frequent bomb explosions, ushered in Ireland's election day.

The uproar started at 3 a. m. It ended at four a. m. The cause of the disturbance has so far not been disclosed.

Following the outburst of noise, a sabbath calm descended upon the city and when the polls opened, Dublin was as quiet as it would be on a holiday.

Most of the shops were closed and hundreds of persons went to the seaside after casting their ballots.

Military patrols were stationed in the important polling centers. Armed cycle patrols ranged the streets and armed guards protected the booths. No untoward incidents were reported.

Local officials are divided as to their theories in regard to Carrigan. Some feel that he became frightened because of the close call that he had when the wrong showman was arrested at Rushville a few days ago at a time he was in that city. Others feel that he is just a little "queer," this information having been received from a bank in Louisville and believe that this is the explanation of the entire affair. He is said to be an Armenian.

Coroners' inquest into the death of James Wright 15 year old inmate of the school, who hanged himself in a solitary cell, was to be resumed Tuesday. Wright committed suicide rather than submit to "cruel punishment," his parents charged.

"The Westerners"

Major Stewart Edward White, author of "The Westerners," the famous novel, which will be seen in screen version at the Mystic Theatre today and Tuesday, is not only famed as a great author, but as an explorer, big game hunter and sportsman as well. Indeed, it is difficult to say in just which of these lines he has scored the greatest success. In the eyes of the general public, of course, his novels and stories stand foremost. But Major White is better known in Africa as the man who holds the world's lion-shooting record, the man who mapped German East Africa for sporting purposes, and then turned over his data to the British Government at the outbreak of the war, and like performances.

From the far North—Alaska, Canada, all the lands of long, dark winter in the New Continent—to the torrid jungles of Central Africa, White has hunted, prospected, surveyed and gathered the wonderfully accurate local color and atmosphere for his books.

He has loved the outdoors and lived there since his boyhood days on his father's timber land in Michigan. His first adventure trip was to the Black Hills during the gold rush there, which exciting epic of American history served as the foundation for "The Westerners," a Hodkinson release, were taken from life and the main events are actual history.

In the Black Hills he found but a pill-bottle full of gold, which was stolen from him. He made his living shooting game for the mining camps. In this exciting occupation there were brushes with the Sioux, and also the beginning of his big game hunting career—for those were the days of the bison and the grizzly.

A Thrilling Drama

One of the most thrilling dramas ever shown on the screen is "The

Woman With Four Faces," featuring Betty Compson and Richard Dix which will be the attraction at the Princess Theatre today and Tuesday. It is a Herbert Brenon Paramount production.

To bring to book a ring of dope traffickers, men of wealth and powerful, the district attorney resigns his job and gains the aid of a clever girl crook to open a safe which contains a paper incriminating these nefarious operators.

She tells him there is but one man who can do the trick, and he is in prison. An escape is effected by means of an aeroplane, but the crook, believing the district attorney is trying to win the girl's love refuses to aid him. Then they go after the paper by different tactics. It

is the center of a mad struggle for its possession, and a series of climaxes are piled on top of one another ere the attorney secures the document and sends the guilty ones to prison. In the end, the girl, reformed, wins the love of the district attorney.

Betty Compson as the girl, Richard Dix as the district attorney, and a cast of favorites in the other parts make this a super-excellent mystery drama. The supporting company is quite capable.

GOD'S KINDNESS.—For the mountains shall depart, and the hills be removed; but My kindness shall not depart from thee, neither shall the covenant of My peace be removed, saith the Lord that hath mercy on thee.—Isaiah 54: 10.

Why Worry

Hog prices are right on the heels of ten dollars and corn is ten to fifteen cents a bushel higher than a year ago, with prospects of one of the best corn crops in history.

So why should farmers worry? Though wheat prices were low, in the face of a comparatively large yield, corn, holding strong, is coming along to make up any deficit that wheat might have caused in the farmer's bankroll.

Indiana is typically a corn state and Rush county, together with

many other southeastern counties, are corn-producing counties. Therefore, a loss on wheat, due to low prices, does not break Rush county farmers, when corn and hogs continue to be normal or a little better.

As a matter of fact, Indiana puts very little dependence on wheat. Her wheat production amounts to only 24,144,000, where the Hoosier state's corn yield amounts to 169,848,000 bushels, and this figure may be topped this year.

Wheat, even, is a smaller crop than oats, which piles up 45,072,000 bushels at harvest time every year.

Feeding high-priced corn to hogs is going to make high-priced hogs and if the price of hogs stays up, the farmers of Rush county shouldn't lose any sleep over selling their wheat crop at a loss.

A Needed Reform

"We kill our presidents with over-work and allow our vice presidents to do little or nothing," remarks a writer.

There is food for an encyclopedia of thought in that statement, lamentably true as it is.

Some day the burdens of the presidency will be divided, and the vice president will become an important cog in the governmental machinery, instead of an ornament under pay.

Perhaps Mr. Coolidge, having tasted of the bitterness of political sweets, will be the executive to advocate this needed reform in our system of governmental control.

Who knows?

Men Work Here

When the czar of Russia took a tumble his chief of staff fled with his family to Constantinople.

While there the general busied himself in writing his memoirs, quite in keeping with the dignity of his aristocratic past. His wife, more practical, took in washing while their two daughters hired out as cooks.

Now they have applied for entry into the United States.

But this would be a bad place for the general, quite distressing, you know. Men work here, while the women take life more easily when there is any ease to be had.

A Hole at Each End

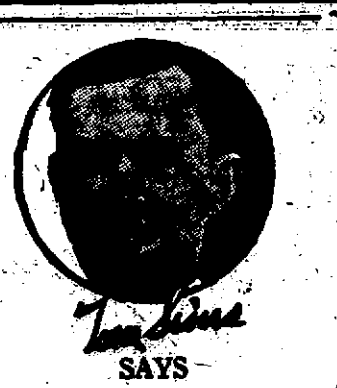

France is willing to reduce the amount of reparations Germany is to pay her, provided we cancel an equal amount of the war debt France owes to us.

Very interesting—quite generous indeed.

We didn't start the war, and over on the other side they say we didn't stop it.

And since we didn't start it, and didn't stop it, and owe no debts for others to cancel, they propose that we step up nobly and hold the bag.

And it's a fine large bag, too, with a hole at each end.

Current Comment**No Cause For Concern**
(New York Herald)

America has no cause for concern with Calvin Coolidge in the White House. The man who enters the office made vacant by the lamentable death of President Harding is not the sort of public servant whose future course invites wonder or speculation. If there were those who, unfamiliar with the history of Mr. Coolidge, expected from him any startling departure from the obvious program, they have been quickly set right by the nation's new chief executive himself.

President Coolidge's first public announcement after taking the oath of office was to affirm, as Theodore Roosevelt affirmed upon succeeding William McKinley, the policies of his predecessor.

This is Wallace McCamant, Oregon attorney, who is credited with putting through the vice-presidential nomination of Calvin Coolidge, resulting in Coolidge becoming president. Already, he is reported as about to receive offers of high positions.

PRECARIOUS THE WORD FOR GIANTS

With Skinny Lead and Slumping Team, National League Leaders Are in Bad Way

REDS BACK IN THE RACE

Pirates Also Contenders, Having Won Ten Out of Fifteen Games on Eastern Trip

By HENRY L. FARRELL
(U. P. Staff Correspondent)
New York, Aug. 27.—With a skinny lead and a slumping team, the New York Giants are in a precarious condition.

Pat Moran's fighting Reds, out of the race just a week or so ago, are back again as strong as ever. The Cincinnati club has not yet broken a winning streak that has run to eight straight games and it is just 3½ games back of the league leaders.

With a great trip through the east in which they won ten out of fifteen games, the Pirates are one game back of the Reds and 4½ games behind the Giants.

Both the Pirates and the Reds are playing better baseball than the Giants and it is a credit to the great team of John McGraw that the world's champions have been able to retain the lead with all their bad baseball.

Only the stoutest of fighting hearts has enabled the Giants to remain in front. Their defeat of the Cubs yesterday is typical of the heart that is keeping them moving. The Giants went into the last half of the ninth needing three runs to win the game and Vic Aldridge was going like a million.

Jimmy O'Connell hit a homer. There were two down when Jackson slapped one at Barney Friberg. He ran it out at his best although it looked like a cinch out and he was moving so fast that he went to third when Friberg threw the ball away. McGraw sent in Jack Bentley as a pinch hitter and he knocked a homer, winning the game.

New York still has faith in the Giants, figuring that the schedule will help them over the hill. The Giants have but two more games against the Reds and three with the Pirates. In contrast, the Pirates and the Reds will meet in eight games and one of the contenders is very likely to be killed off. It is just as likely to be the Reds as the Pirates.

In the American League the Yankees are just moving along, winning and losing. With all, though, they are retaining a great big lead and there is little to worry them.

TEAM IS RAINED OUT SUNDAY

Rushville's Game With Greenfield Called in Third Inning

The Rushville baseball team got rained out at Greenfield Sunday afternoon, where the two teams were engaged in a good contest, in the third inning. Neither team had scored when the game was called. Yazul for Rushville was in excellent form, and only six batters had faced him in the two innings that Greenfield had batted, and of these six batters, five of them had fanned. Beluke, who had pitched this season for the locals, was on the mound for Greenfield, and the locals had gathered two hits off of his delivery, and it was beginning to look like Rushville was going to put across some runs.

Greenfield will probably be booked here for Labor Day, and New Salem is scheduled to play here next Sunday.

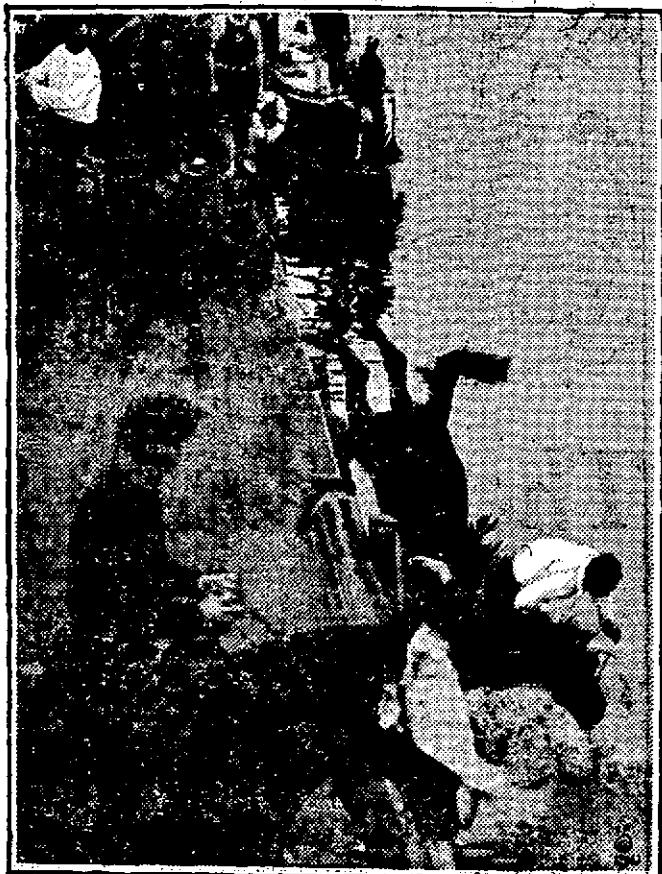

CROWD OF 100,000 IS EXPECTED HERE

Continued from Page One
The event is being extensively advertised in Rush county, adjoining counties and over the state and the committee in charge states that "All Roads will lead to Rushville Labor Day." With fair weather for the occasion, the crowd is expected to reach the 100,000 mark. According to reports received here, the meeting is attracting much interest over the state and no effort is being spared by the local committee, which is in charge of the arrangements for the gathering, to make it a real success.

McGraw's Genius Wins

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Aug. 27.—After the genius of leadership he has shown in the last three seasons, it might be true, even if it sounds a little unfair to his boys, to say that John McGraw can win a pennant with any kind of a good ball club.

The New York Giants of 1922 were, in comparison to the other clubs in the National League, a fine ball club, but it is almost certain that they would not have won the pennant behind any manager other than McGraw.

No other manager, with such a dilapidated pitching staff, could have urged the Giants to the heights which they attained in the critical parts of the 1923 pennant race.

Outside of the pitching department which some tacticians consider the most important, the Giants have a great team. McGraw has said he figures it to be the smartest and the best ball club he has ever handled.

In building up what no doubt will turn out to be at least a three-time pennant winner, McGraw was able to find everything but good, young pitchers, and since the New York club has more money to spend than any other National League club, it seems but fate that has reduced the team to such poverty in pitching.

From the results of the 1921 and 1922 pennant races, it might be argued that a great team can win without great pitchers, but the results are achieved only by genius in direction. McGraw has the genius and the figures show that it is possessed by no other manager.

RUSHVILLE TEAM GOES TO THE FINALS

Tom Ryan and Mike Arbuckle Make Stand Against Connersville In Inter-City Tennis Tourney

OTHER TEAM IS ELIMINATED

The Connersville tennis doubles team won the second leg on the inter-city cup offered at Connersville, in the second annual tournament in the Connersville courts Saturday afternoon, defeating a Rushville team composed of Mike Arbuckle and Tom Ryan of this city in straight sets.

Columbus and Franklin both defeated and Connersville, Rushville and Richmond fought it out. The second Rushville team composed of Russell Fitzworth and Dr. D. D. Dragoon drew a bye in the first round and went to the semi-finals where they were defeated by Spicely and Ridge of Connersville, losing two straight sets after winning the first one 7-5.

Ryan and Arbuckle eliminated the Richmond contestants and went to the finals with Spicely and Ridge, only to be defeated.

Connersville won the first leg on the cup last year and got a firmer hold on it this year. According to the rules, the team winning the cup three times is entitled to keep it permanently.

FIRPO NEEDS MORE SPEED

Challenger's Managers Looking For Speedier Partners

Atlantic City, N. J., Aug. 27.—Advised by competent judges that their man needs to be speeded up to have the right kind of a fight for Jack Dempsey, Louis Firpo's handlers were making efforts today to secure some fast lightweight and welterweights as additions to the South American's staff.

Dr. John Reilly, medical examiner of the New York boxing commission, who has examined both Dempsey and Firpo, said that the latter has a better heart than Dempsey and is less subject to the effects of hard punching.

The Score Board

FIRST EVENTS THIS WEEK

Chicago, Aug. 27.—Invasion of Chicago by contenders for National A. A. U. honors in track and field athletics was under way in earnest today.

A powerful Los Angeles A. C. team, composed of some of the best performers on the Pacific coast, today, was speeding over the mountains after leaving Los Angeles Sunday.

NOT TO TRAIN FOR FEW DAYS

Dempsey May Not Resume Work Until Thursday, Due to Cold

Saratoga, N. Y., Aug. 27.—Both-ered with a heavy cold, Jack Dempsey plans to knock off his training for the Firpo fight for several days this week and he may not resume work until Thursday.

In front of a crowd of 3,000 spectators, including many society women, Dempsey worked yesterday with George Godfrey and Jack Burke and failed to show much class. He complained that his muscles are stiff and that the cold was slowing him up.

Rather than take a chance on throwing himself clear off, Dempsey said today he wanted to take several days rest and doctor up the cold. Jack McAuliffe, Farmer Lodge and Jack Renault are expected to join the sparring partners at the Dempsey camp today and when the champion resumes work he will have plenty of heavyweights to get in the way of his punches.

Physical Health means Beauty!

HEALTH and beauty go hand in hand. Where the system is run down—the face drawn and haggard—the body limp and lifeless—beauty is missing. Looks of pity supplant those that might have been gazes of admiration.

Restore your health and beauty will take care of herself. S. S. S.—the rich blood builder—rekindles the spark of health and lights the blaze of beauty by building red blood cells. The nerve power of your system finds life in these very blood cells. Build more red blood cells and your nerve power will increase. S. S. S. builds them. Rich blood will tingle through your system. That lost charm will return. Your entire system will be repaired. You will be ready to cope with the impurities and blemishes that handicap beauty.

As physical health means beauty so, too, does S. S. S. mean beauty. For S. S. S. means systems that are free from impurities—pimples, blackheads, acne, boils, eczema, rheumatism. S. S. S. and good health go hand in hand.

S. S. S. is made of pure vegetable ingredients. It is sold at all good drug stores. The large size bottle is more economical.

ACTS TO PREVENT FURTHER RIOTING

Continued From Page One

The initiation. A number of the klansmen came into the borough limits earlier in the evening and minor disturbances followed, but it was not until the chiefs of the klansmen decided to hold a parade without a permit of the officials of the town that the riot started.

The mob of Carnegie citizens, brandishing clubs and firearms, met the marching klansmen at the Glendale bridge and warned them not to cross into the town. The marchers proceeded with the parade.

An automobile leading the parade was wrecked as the Carnegie men flung themselves on the hooded marchers and curses and threats of "lynch them" and "get ropes" filled the air. The battle lasted for an hour over an area covering four Carnegie city blocks until Pittsburgh police arrived with riot guns and clubs and restored order. Hundreds of klansmen were unmasked and their tattered robes littered the streets.

Over 300 pieces of fire arms, from cheap pistols to shotguns, were found in the streets when the mob was finally dispersed.

sed the opinion that he may have "no plan at all", merely a program or a soft ultimatum to deliver.

The miners intimated strongly that arbitration would be refused as a plan of settlement but showed a willingness to compromise if the operators would listen to the terms of such a solution.

With all of the doubt pervading the atmosphere as the conference opened, there was an element of hope that the governor, when, he hears the whole story, will see a way out of the deadlock by some suggestion, inspirational or otherwise that has never been tried before.

Phillip Murray, first vice president of the Mine workers, is heading the miner delegation. The governor has been informed that John L. Lewis, chief of the union is still in Atlantic City.

It is not clear to the governor just what powers Murray may have to sign or agree to any plan that might be drawn up. There is an impression however, that the miner delegates would leave any actual step toward settlement to Lewis.

Pinchot expects his conference to last several days. He has sent a representative to New York to work out with conferees from the ten other anthracite consuming states, a plan of flooding bituminous areas in case of a strike.
